

No-Slip is a micronized polymer (finely ground) Slip Resistant Additive that has been designed specifically for use in GST film forming sealers, which include: all Wet Look Lacquers, Lock 'N Seal and Satin Seal.

No-Slip provides a comfortable walking surface for bare feet and will not dissolve in solvents, absorb oil or expand in water.

- GST's No-Slip must be applied using our GST Low Pressure Pump Sprayer.
- To ensure even application of No-Slip, continuous agitation while spraying is required.
- When applying No-Slip to pool coping, use an overspray paint shield to avoid getting sealer in the pool. Be sure to clean paint shield often to avoid excess sealer/No-Slip contaminating the pool water.
- Using a brush or roller will cause uneven distribution of No-Slip additive, resulting in slippery areas.
- NO-Slip cannot be used with penetrating sealers and must be used with film forming sealers.

This product is made from the finest raw materials available and manufactured to proven formulation under strict quality control for its intended use. However, results obtained with the use of this product under a variety of conditions may depend on circumstances beyond our control.

GST International, Inc. (including the seller thereof) warrants only that its products will be free from defects in materials. GST International, Inc.'s (including the seller thereof) sole obligation, and the purchaser's (including the person using or benefiting from its use) sole and exclusive remedy in the event of a defect covered by the foregoing warranty, shall be, at GST International, Inc.'s discretion, to (a) replace the defective product, or (b) refund to the purchaser the purchase price paid for such defective product. There are no warranties other than the limited express warranty provided above. In no event shall GST International, Inc. (or the seller of its products) be liable for incidental or consequential damages resulting or arising from the use of its products.

Our Family of Products:

For Newly Poured Concrete

Use **ConCure** immediately after new concrete is poured. Allow approximately 28 days for new concrete to cure prior to applying any GST Sealer.

Where Efflorescence, Rust or Cement Scale is Present

Use **Clean Concrete** to remove efflorescence, rust and cement staining.

Where Cleaning is Needed or Efflorescence Remover Has Been Used

Use **Pro-Grade Cleaner** to thoroughly clean, remove oil, grease, dirt and prepare the surface prior to applying any of the GST Sealers.

Use ProGrade Cleaner to neutralize pH where Clean Concrete was used.

Choose an Invisible or Appearance Enhancing Sealer *To be applied after the surface is clean and dry.*

Choose an Appearance Enhancing Sealer:

Choose an Invisible Sealer: • Water Block

Stain Block Elite

Use with:

- Low Sheen Wet Look Lacquer • High Gloss Wet Look Lacquer
- Lock 'N Seal
- Satin Seal
- Stone Enhance
- Final Coat
