Tools & Ancillary Products
Other recommended tools used for working with Elephant Armor®

Elephant Armor® Primer
is a high solids, acrylic polymer latex bonding agent specifically designed to be used with Elephant Armor® on any concrete or asphalt surface.

Elephant Armor® Primer is not a substitute for water in any proportion with 'standard' mixes of Elephant Armor® mortars.

Pro-Grade Cleaner
is a complete heavy-duty concrete and masonry cleaner designed specifically to clean dirt, grime, food, beverage and oil stains on interlocking paving stones, concrete, brick pavers and clay tile.

Degreaser Pro
Degreaser Pro is a concentrated heavy duty concrete and masonry degreaser specifically designed to remove deep seated oil/grease stains, chewing gum residue, and organic stains on all hardscape surfaces.

Elephant Armor® Delay
to increase working time. (comes with measuring scoop)

**9" (230mm) and 18" (450mm)
Smooth Roller**

**9" (230mm), 9¹/₂" (240mm) and 18" (450mm)
Textured Roller**

1/4" and 1/2" Roller Depth Gauges
for 9", 9¹/₂" and 18" rollers

Expandable Aluminum Roller Frame *(rollers not included)*
Showing Expandable Roller Frame at 9" to 18"
with 1/4" and 1/2" depth gauges *(sold separately)*

Squeegee Trowels
Place and finish Elephant Armor® quickly and
easily. Available in 18" and 26" blade widths.

**Replacement
Xo 55 Duo Paddles**

Mandatory for mixing
Elephant Armor® Mortars!

ColloMix Xo 55 Duo – Heavy work made lighter
The counter-rotating hand-held mixer makes lots
of mixing jobs easier and quicker. There is no
counter-torque on the user and the machine is
easy to move even in heavy and viscous material.
You can generally count on being finished in just
half the time.

Elephant Armor® Mixing Bucket
Rugged 70 quart polypropylene
mixing bucket. Use our mixing bucket cart
for easy handling.

Mixing Bucket Cart
Makes moving the mixed Elephant Armor from
the mixing station to the placement area faster
and easier.
