

Elephant Armor® Tools & Ancillary Products Make Heavy Work Lighter

Tools & Ancillary Products Other recommended tools used for working with Elephant Armor®

Elephant Armor® Primer

is a high solids, acrylic polymer latex bonding agent specifically designed to be used with Elephant Armor® on any concrete or asphalt surface.

Elephant Armor® Primer is not a substitute for water in any proportion with 'standard' mixes of Elephant Armor® mortars.

Elephant Armor® Delay

to increase working time.
(comes with measuring scoop)

Elephant Armor® Tools & Ancillary Products Make Heavy Work Lighter

9" (230mm) and 18" (457mm)
Smooth Roller

9" (230mm) and 18" (457mm)
Textured Roller

1/4" and 1/2" Roller Depth Gauges
for 9" and 18" rollers

Expandable Aluminum Roller Frame (*rollers not included*)
Showing Expandable Roller Frame at 9" to 18"
with 1/4" and 1/2" depth gauges (*sold separately*)

Squeegee Trowels
Place and finish Elephant Armor® quickly and easily.
Available in 12", 18" and 26" blade widths.

Elephant Armor® Mixing Bucket
Rugged 70 quart polypropylene mixing
bucket. Use our mixing bucket cart for
easy handling.

Mixing Bucket Cart
Makes moving the mixed Elephant Armor®
from the mixing station to the placement
area faster and easier.

Mandatory for mixing
Elephant Armor® Mortars!

ColloMix Xo 55 Duo – Heavy work made lighter
Due to Elephant Armor's heavy fiber load, that
results in a highly viscous mix, the ColloMix Xo
55 Duo is mandatory for generating the required
high shear needed to achieve a homogenous mix
in Elephant Armor® mortars. You can generally
count on being finished in just half the time.
